Parcel Identification Number (PIN)

ARTICLE 1
DEFINITIONS

The following definitions shall apply to this Declaration:

"**ACC**" is the Architectural Control Committee established pursuant to Article IV.

"**Association**" is the Sugar River Vista Homeowners Association, Inc.

"**Board**" is the board of directors of the Association.

"**Bylaws**" are the bylaws of the Association.

"**Declarants**" shall have the meaning as set forth in the opening paragraph above.

"**Developer**" is Sugar River Vista, LLC a Wisconsin limited liability company, for the development of the Hilda's Pies lots: Sweetwater V, LLC for the development of its lots: and Firefly

Ridge LLC for the development of its lots. It is understood and agreed that all Developers named herein shall serve on the ACC together, until control passes to the Association as further set forth herein. See Exhibit A for current ownership.

"Improvement" or "Improvements" include any buildings, driveways, decks, patios, pools, utilities, septic systems, wells and all other structures of every kind and description.

"Lot" or "Lots" are the lots 1 through 59, excluding lots 16, 34, 35, 58 and 59, and any successors to said lots of the Plat.

"Outlot" or "Outlots" are Outlots 1 through 9 of the Plat.

"Owner" is the person or persons owning the fee simple title to a Lot, except that if a Lot has been sold on land contract, the Owner shall be the person or persons named as the purchaser in the land contract.

"Plat" is the Plat of Sugar River Vista.

"Property" shall have the meaning as set forth in the opening paragraph above.

"Subdivision" is Outlots 1 through 9, inclusive and Lots 1 through 59, excluding Lots 16, 34, 35, 58, and 59, including future subdivision of said lots, of the Plat of Sugar River Vista located in the Town of Verona, Dane County, Wisconsin.

"Stewardship Plan" is the document attached as Exhibit E, which details the way certain of the Outlots are to be maintained.

"Stewardship Committee" shall be a committee of Owners tasked with ensuring that the Stewardship Plan's required maintenance is carried out.

"Town" is the Town of Verona, Dane County, Wisconsin.

ARTICLE 11 PROPERTY SUBJECT TO THIS DECLARATION

2.1 The real property which is and shall be held, sold, occupied, conveyed, and transferred subject to this Declaration shall consist of the Property. Ownership of the Property, as of the date of this Declaration, is set forth in Exhibit A, attached hereto and incorporated herein. The Property will be developed in multiple phases over time. The Lot(s) shall become subject to these Covenants when the Developer that owns such applicable Lot(s) delivers written notice to the Association Board and to the Town of Verona Clerk of the intent to sell, transfer, or build upon said Lot(s). No Lot shall be sold, transferred, or built upon until it has become subject to this Declaration. Prior to being made subject to this Declaration, the Lot(s) and the adjoining roadway servicing said lots shall be deemed eligible for and will be utilized for continued agricultural usage (crops, grazing, etc.).

ARTICLE 111 STATEMENT OF PURPOSE

3.1 The purpose of this Declaration is to establish covenants, restrictions, conditions, and easements to help the Subdivision become and remain a desirable and high-quality residential community; to preserve and maintain the natural beauty of the Property; to guard against the erection thereon of poorly designed or proportioned structures; and to facilitate the appropriate development and improvement of the Lots and the construction of attractive and harmonious homes within the Subdivision.

ARTICLE IV ARCHITECTURAL CONTROL COMMITTEE

4.1 Establishment of Architectural Control Committee. The Sugar River Vista Architectural Control Committee ("ACC") is hereby established pursuant to this Article.

4.2 ACC Members.

(a) The Developers shall initially serve as the only members of the ACC.

(b) When a Developer no longer own any Lots in the Subdivision, that particular Developer shall resign from the ACC. When all Developers have sold their Lots or have voluntarily resigned from the ACC, then the responsibility for the ACC shall be transferred to the Board. When the Board becomes responsible for appointing the members of the ACC, there shall be at least three and no more than five members of the ACC, and the ACC shall act by the vote of a majority in number of the members of the ACC. Additional governance procedures and policies may be established by the ACC from time to time.

4.3 ACC Approval Required.

(a) Original Construction. All plans for buildings, landscaping, and other Improvements to be constructed or placed on any Lot, along with all site plans, including elevations and location of septic system and well, shall be approved in writing by the ACC prior to construction. No buildings, structures, fencing, pool or other Improvements shall be constructed or placed on any Lot unless approved in advance in writing by the ACC.

(b) Additions and Alterations. All proposed alterations in the exterior appearance of any building, structure, or other Improvement erected or placed on any Lot, including but not limited to, exterior remodeling and changes in colors from those previously approved, and the construction of additions, patios, decks, swimming pools or other Improvements on Lots, shall be approved in writing by the ACC prior to construction or alteration. No alterations in the exterior appearance, or changes in color, shall be made to any building, structure or other Improvement unless approved in advance by the ACC.

4.4 Submissions. The ACC will seek to approve submissions which substantially conform to a recognized architectural style(s) and which contribute to the achievement of the Statement of Purpose outlined in 3.1. Thereby, each Owner shall submit the following documents and information to the ACC in conjunction with any request for approval of any construction or alterations on any Lot:

(a) Two sets of drawings and written specifications for the proposed structure or Improvement, and Outbuildings including at a minimum; floor plans, elevations of all views

of the structure, proposed architectural style, exterior finishes, roof type, structure, driveway and Improvement locations, description of exterior materials and colors, identification of all exterior lighting, well location, septic system type and location, landscape plan, applicable zoning setbacks, approved building envelopes, and any amenities to be constructed or installed on the Lot. Exterior lighting shall comply with any relevant Town of Verona Dark Sky Ordinance and driveway placement shall comply with the Town of Verona Driveway Ordinance.

(b) Any deviation(s) or requested exemption(s) from the specifications or mandates outlined in this Declaration shall be specifically called out and detailed in the submission document. Any approvals of those requested deviations or exemptions must be specifically addressed by the ACC. Any general approval of plans by the ACC will not grant permission for any deviations from the covenants, if they have not been specifically called out and specifically approved by the ACC.

(c) Two sets of site plans for the Lot identifying proposed grades and location of Improvements to be constructed, which shall be located within the building envelope identified on the Plat for each Lot and in compliance with any recorded deed restrictions for individual Lots.

(d) Any additional information reasonably requested by the ACC. For example, the ACC may request submission of exterior material samples.

(e) Contact information for the Owner, including name, mailing address, e-mail address and telephone number.

(f) In addition to paper copies of the documents referred to above, the Owner shall submit electronic copies of all documents.

(g) Plan review fee in the amount of \$300.00. Extraordinary costs of review (e.g. engineering or consultants) may be assessed to applicant.

A submission shall not be complete, and the 30-day approval time set forth in Section 4.5, shall not commence until all required documents have been submitted.

4.5 ACC Approval: Governmental Approvals. The ACC shall approve or disapprove a submission within thirty (30) days of its receipt of all of the documents and information required by Section 4.4. The ACC's decision shall be in writing, and may be transmitted to the Owner either by U.S. Mail or e-mail. If the ACC fails to issue its decision within the time limit, approval shall be deemed to have been given. If the submission is approved, any material changes to the approved submission must be resubmitted for approval by the ACC. In addition to obtaining approval of the ACC, the Owner shall also obtain any required building permits and governmental approvals for the proposed construction or Improvement prior to commencing construction. If the submission consists of building plans and specifications for construction of Improvements on any Lot within the Subdivision, the Owner, upon receiving approval of those building plans and specifications from the ACC, shall submit a copy of evidence of that approval to the Town Building Inspector for Inspector's use. However, the Town Building Inspector is not obligated to enforce the covenants or conditions of approval. In addition

to obtaining approval of the ACC, the Owner shall obtain any required approvals from the Town of Verona, Dane County, and any other required governmental agency.

4.6 Discretion of ACC. The ACC shall have the right to reject any submission which is not in conformity with the provisions and purposes of this Declaration, or which is not desirable for aesthetic reasons, or is not in harmony with the homes and Improvements constructed on other Lots, in the opinion of the ACC. In exercising its discretion to approve or reject any submission, the ACC may take into consideration the suitability of the proposed building, structure, or Improvement, its design, elevation, color, construction materials, the harmony thereof with surrounding homes and Improvements, its proposed location, the view from other Lots in the Subdivision, and such other matters of terrain, environmental impact, aesthetics, and the impact upon other Lots in the Subdivision as the ACC may deem appropriate, or is not in compliance with any applicable Town of Verona ordinance. The location of houses and other Improvements on Lots shall be subject to the approval of the ACC, and the ACC shall have authority to reject the positioning of a proposed house or other Improvement on a Lot, even if the proposed location meets the minimum setback requirements. The ACC shall exercise its approval authority and discretion in good faith. Each Owner, by acceptance of a deed to the Owner's Lot, releases the Declarants, the ACC and the Developer from liability based upon the good faith exercise of their duties and discretion under this Declaration. Refusal by the ACC to approve submissions may be based on any grounds, including purely aesthetic grounds. Any grant of approval creates no precedent nor basis for future approvals or requests.

4.7 Variances. The ACC shall have the right, in its sole discretion, to grant variances to any of the covenants and restrictions in this Article IV, excluding the last four sentences of Section 4.5. Any grant of a variance or approval creates no precedent nor basis for future approvals or requests.

4.8 Preliminary Sketches. Owners are encouraged to submit preliminary sketches and descriptions for informal comment prior to submission of plans for final approval.

ARTICLE V ARCHITECTURAL RESTRICTIONS

All Lots shall be subject to the following restrictions:

5.1 Construction Restrictions. The following restrictions shall apply to all Lots:

(a) The exterior walls of the building shall be constructed of brick, stone, stucco, redwood or cedar siding, James Hardie fiber cement siding, LP Smartside, Vesta Steel Siding, Longboard Architectural Siding, Aluminum Composite Material (ACM) panels, or similar products, or a combination of the foregoing materials. Aluminum siding and prefabricated metal (other than the products noted in the prior sentence), concrete block, structural concrete, T I-11, and vinyl siding shall not be permitted. There shall be a uniform and complimentary use of building materials on all four sides of the home.

(b) Direct vent fireplace enclosures may not be placed on the exterior of the building unless the enclosure terminates under an uninterrupted soffit and is placed on the rear of the building or behind an offset in the building so as not to be visible from the front yard.

(c) Brick or stone veneer is required to be placed on the exposed portions of the foundations on the front and both sides of the building (excluding a gap of up to 6" between the ground and the bottom of the siding).

(d) Fascia shall be a minimum of 10" in width unless the ACC, in its discretion, gives approval for a lesser width. Fascia shall be of cedar, redwood, James Hardie fiber cement board, LP Smartside, Vesta steel, Longboard Architectural, or similar product. Aluminum fascia (other than the products noted in the prior sentence) and vinyl fascia will not be permitted.

(e) Soffits may be aluminum, wood, fiber cement board, or stucco.

(f) Roofing shall be architectural type shingles, slate, tile, standing seam metal, or wood shakes. The panel width of metal roofs must be at least 16" on center. Other types of shingles or roofing materials may be permitted with ACC approval, in its discretion. 3-tab shingles are not permitted. Owners must obtain prior written approval from the ACC as to the color and type of the roofing materials.

(g) Plumbing vents, HVAC vents, and roof vents, unless continuous ridge vents, shall be placed in locations that are not visible from the street adjoining the front yard.

(h) All buildings shall have a minimum roof pitch of 6 to 12, unless the ACC, in its discretion, gives prior written approval for a different pitch such as, for example, roofs for prairie style homes or in areas with special height restrictions imposed (see paragraph j below).

(i) Proposed colors of siding, trim, and roofing shall be submitted to the ACC for approval. The colors of siding, trim, and roofing shall be coordinated to achieve an aesthetic combination for the building.

(j) Improvements on Lots 20, 21, 27, 28, and 33 shall not have a vertical height greater than 28 feet above the "maximum ground level" established for the Lot. The building height will be measured along that façade and will be calculated as the mean elevation of the finished grade along the front of the building (side directly facing the public street) to the mean height level between the highest ridge and its associated eave for gable and hip roofs. The "maximum ground level" for a Lot shall be that which is indicated on the Plat. The Lot owner's architect, engineer, or builder shall certify compliance with this standard. The Lots impacted by this section shall be allowed up to 30% impervious area.

(k) Each residential structure shall have a minimum of the following floor area finished living space:

(i) Single-story houses shall have not less than 2,000 square feet.

(ii) Two-story houses shall have not less than a total of 2,500 square feet.

(iii) For the purpose of determining floor area, stair openings shall be included but open porches, screen porches, garages, basements, and below-grade

levels, even if finished, shall be excluded. The measurement in determination of the amount of floor area is within the complete discretion of the ACC.

(iv) The ACC shall have the power in its discretion to grant variances to the minimum floor area requirements where the architecture, quality and other attributes of the proposed house are in harmony with and represent an appearance compatible with other houses in the Subdivision.

(l) No building shall have a building height in excess of 35 feet above grade as defined by Dane County Zoning Ordinance.

(m) Placement of mailboxes are subject to the rules of the United States Postal Service. The Plat shall include clustered mailboxes as required by the United States Postal Service placed in locations permitted by the United States Postal Service. The Developer will initially designate the model and manufacturer of the mailbox to be installed in each location.

5.2 Garages. Unless otherwise approved by the ACC, all houses must have one, but not more than one, attached garage that contains not less than two (2) automobile stalls and no more than five (5) automobile stalls, unless otherwise approved by the ACC. Side facing garage doors are encouraged. Exceptions will be considered based on individual lot conditions. All of the garage doors shall be a uniform height, not to exceed 9 feet, unless otherwise approved by the ACC.

5.3 Driveways. Driveways may be concrete or brick. If a driveway is constructed prior to the roadway surface layer of asphalt being placed, a minimum of 5 feet of the driveway (measured from the roadway pavement edge), must be constructed with cold patch asphalt, hot mix asphalt, or crushed stone. Each Owner who constructs a driveway before the surface course is placed on the public street adjoining the Owner's Lot shall construct the driveway to match the elevation of the surface course except for the last five feet which shall be sloped down to match the binder course elevation. At the time the surface course is placed, the last five feet of asphalt pavement shall be removed and replaced to match the surface asphalt elevation at the Owner's expense.

(a) For concrete or brick driveways built after the surface asphalt is placed, the concrete or brick may extend to the edge of the street pavement and must match the surface asphalt elevation. Concrete driveways built at this time and extended to the street pavement edge shall be built with a control joint five feet from the asphalt roadway edge.

(b) Whether a driveway is constructed before or after the surface asphalt is placed, the driveway must be built in such a manner that when it its final state (after surface asphalt is placed), the driveway conforms to all requirements of the Town's Driveway Ordinance.

(c) It is the responsibility of the Owner to confirm whether the surface course has been placed when the Owner constructs the driveway. The Owner can contact the Town for this information.

(d) Any Owner who does not comply with these requirements may be required by the Town to remove and correct the Owner's driveway at the Owner's expense. Before the surface course is placed on a public street, the Town's snowplows may damage driveways which have been placed above the elevation of the binder course of asphalt. The Town will not

be liable for the repair of any such damage. Any such damage shall be repaired at the sole expense of the Owner.

(e) Each Owner shall install the Owner's driveway within thirty days after completion of construction of the Owner's house, unless not permitted by weather conditions. If weather conditions delay completion of a driveway, the driveway shall be completed as soon as weather permits. An Owner will be required to cause a culvert to be installed as part of the driveway construction if such driveway crosses an established or proposed swale, ditch or drainage way.

5.4 Surface Elevation. The Developer has constructed or will construct certain drainage swales and ditches in the Subdivision. The Subdivision also contains natural drainage ways. These swales, ditches and drainage ways are referred to as the "Drainage System." No Owner may alter the Drainage System without the prior written consent of the Developer. No Lot Owner shall change or cause to be changed the surface elevation, grade, or drainage pattern to surrounding Lots. Developer shall have the right at any time to grade or regrade the Lots to accommodate, alter, or establish drainage flows. The Developer shall not be liable to any Owner for the drainage system nor any such grading or regrading.

5.5 Minimum Opening Elevations. Certain lots shall have minimum opening elevations to protect them from flooding. See Exhibit B.

5.6 Lots Subject to Public Stormwater Drainage Easements. The following Lots are subject to public stormwater drainage easements: 22-23 and 55-57. The Owner of a Lot which is subject to a public stormwater drainage easement shall be responsible for mowing the grass and maintaining the trees and other vegetation in the easement area. New plantings (other than approved grass) in the public stormwater drainage easement areas are not allowed. The Association and the Town shall have authority to enter the public stormwater drainage easement area to maintain, repair, or improve the function of the drainage way.

5.7 Stormwater Runoff from Roof. The Owner of each Lot shall direct all downspouts onto absorbent, permeable surfaces on the Lot.

5.8 Swales. Owners shall not alter any drainage swales, roadside ditches, or natural drainage located within or adjacent to a Lot.

5.9 Construction Deadline & Construction Garbage. Construction of any house shall be completed within fourteen (14) months after the issuance of the building permit. If it is anticipated the length of construction will exceed 14 months, a construction schedule shall be submitted by the Lot Owner to the ACC for approval. The completion of the lawn and landscaping shall be completed within 60 days of the earlier of date of occupancy or the date of completion of construction of the home, weather permitting. Construction related garbage shall be controlled on the Lot and prevented from blowing onto adjacent lots. Any material that leaves the site shall be collected as soon as possible.

5.10 Utilities. All utilities in the Subdivision shall be installed underground. An Owner shall not change the elevation of any utility easement without permission of the applicable utilities using such easement.

5.11 Outbuilding. No outbuilding or accessory buildings, including, but not limited to, storage sheds, shipping container, tents, tree-houses, pool houses, barns, subsurface storage, and detached garages, shall be permitted on any Lot without the prior written approval of the ACC. The design of an Outbuilding is encouraged to follow a similar architectural style and material use as the lots primary structure.

5.12 Prefabricated Homes. No building previously erected or substantially constructed elsewhere may be placed on any Lot.

5.13 Dog Houses. No dog houses or outside kennels may be erected on any Lot.

5.14 Exterior Lighting. Exterior lighting shall comply with the Town of Verona's Dark Sky ordinance and include indirect or other such controlled focus and intensity fixtures, that the lighting will not disturb the Owners of adjacent Lots. "Daylight" or "bright white" lighting is not allowed. Exterior lighting shall be "soft white" below 3000k or equivalent.

5.15 Wells. Any well located on a Lot shall be identified on the site plan and be located in accordance with any restrictions contained on the Plat. During construction of a well, the Owner and the Owner's contractor shall not discharge any drilling mud or cuttings into any roadside ditch, natural drainage way in a public stormwater drainage easement, or other improved drainage way. If any such discharge occurs, the Owner at the Owner's expense shall promptly restore the roadside ditch, natural drainage way, or the improved drainage way to its original condition. For Lots 42 - 45, any well must be located at a minimum of three hundred (300) feet from the eastern property line of each such lot. For Lot 46, any well must be located at a minimum of three hundred (300) feet from the adjacent farm field property line. For Lots 47-52, any well must be located at a minimum of three hundred (300) feet from the most southern property line of Outlot 8.

5.16 Play Equipment, Courts, and Structures. No swing set, sport court, basketball equipment or other recreational equipment shall be installed on any Lot without the prior written approval of the ACC. No such equipment shall be placed, whether permanently or temporarily, in the unpaved portion of the street, in any public street right-of-way, or within a public stormwater drainage easement or public recreational trail easement. Any approvals or variance granted hereunder shall not be deemed precedent for any future requests.

5.17 Antennas/Satellite Dishes. Except to the extent that this prohibition is limited by federal or state law, no exterior television or radio receiving or transmission antenna or satellite signal receiving station or dish shall be placed or maintained on any Lot without prior written approval of the ACC.

5.18 Solar Equipment, Wind-Powered Generators. In accordance with applicable federal and state law, solar and wind energy systems may be installed on any Lot in such a manner as to have the least visual impact on neighboring Lots or the Subdivision. The ACC shall have authority to reject the requested location, if the ACC determines, in its discretion, that a more appropriate location is viable. The ACC can exercise design control over these systems to the extent permitted by federal, state, and local regulations.

5.19 Swimming Pools. No above-ground swimming pools shall be allowed. All in-ground swimming pools shall require written approval of the ACC.

5.20 Private Wastewater Treatment Systems. The Town will not issue a building permit for any Lot until Public Health Madison and Dane County (PHMDC) has approved the suitability of the Lot for the installation of an on-site private wastewater treatment system (POWTS).

5.21 Impervious Surfaces. Impervious surfaces on a Lot shall not exceed twenty-five percent (25%) of the total square foot area of such Lot.

5.22 Liquid Petroleum Tanks. All Liquid Petroleum (LP) tanks are required to be buried in accordance with applicable federal, state, and local laws and regulations, including minimum burial depths and setback distances from buildings, property lines, and buried electrical lines. Owners shall ensure that LP tanks are maintained in good condition and are subject to regular inspections as required by regulatory authorities. In the event site or soil conditions prevent the LP tank from being buried, at the discretion and written approval of the ACC, the LP tank may be installed above ground in accordance with applicable federal, state, and local laws and regulations regarding the storage and use of liquefied petroleum gas. All above-ground LP tanks shall be screened from view from the road and adjoining lots using appropriate landscaping or hardscape screening materials, such as fencing or walls, that are compatible with the architectural style of the home. No LP tank shall be installed in a location that obstructs essential access to the property or negatively impacts the aesthetics of the Subdivision, as determined by the ACC.

5.23 Variances. The ACC shall have the right, in its sole discretion, to grant variances to any of the covenants and restrictions in this Article, except that variances may not be granted with respect to Sections 5.3, 5.4, 5.5, 5.6, 5.8, 5.10, the first sentence of 5.14, or any part of Sections 5.15, 5.20 and 5.21. In all other instances in this Declaration the ACC shall act in its discretion in granting approvals or variances, subject to any governmental rules or regulations and all such approvals or variances shall be in writing. Any approvals or variance granted hereunder shall not be deemed a precedent or basis for any future requests.

ARTICLE VI LANDSCAPING, YARD, AND OUTLOTS

6.1 Landscaping Plan. The Owner shall submit a landscaping plan to the ACC for approval prior to commencement of construction of a home on the Lot. The landscaping plan shall show a point schedule for trees, bushes, planting beds, walkways, retaining walls and any other landscaping features. Owners are encouraged to use native trees, shrubs, and flowering plants in their landscaping. The following guidelines shall be followed:

(a) Landscape plans shall be developed to enhance the ambience of the Lot. The plan should pay particular attention to street side foundation plantings and should adapt to the surrounding topography of the Lot. The landscape plan for each Lot shall achieve a minimum of 700 landscaping points as determined by the following point schedule. Simply accomplishing the point total does not guarantee approval of the landscape plan – the ACC at its sole discretion has the right to approve or reject any landscape plan regardless of point total.

Landscaping Element and Point Value:

Canopy Tree:

a tree caliper of 2 to 3 inches measured at 18 inches above the soil level: 125

a tree caliper of 3 to 4 inches measured at 18 inches above the soil level: 150

a tree caliper greater than 4 inches measured at 18 inches above the soil level: 200

a tree caliper of 1 to 2 inches measured at 18 inches (i.e., Crab, Hawthorn): 100

Evergreen Tree:

4 feet to 6 feet in height from the base of the trunk: 100

Prairie Plantings:

250 square-feet minimum: 150

Large Deciduous Shrubs

3-year transplant – 36-inch minimum measured from the base of the trunk: 20

Small Deciduous Shrubs

3-year transplant – 18-inch minimum measured from the base of the trunk: 10

Decorative Wall (rock, brick per face foot): 5

A current list of approved/preferred trees is maintained by the Secretary of the Association and shall be provided to members upon request. Additions and subtractions to the approved/preferred tree list shall be governed by the Board. The planting of black walnut trees will require the prior location approval by the ACC, as they can kill shrubs and other plantings. Any such trees not included in the list and shown on the landscape plan or planted on a Lot are subject to ACC approval.

(b) Except in such cases that factors beyond the control of the Owner prevents timely planting, all plantings required to be placed upon the Lot shall be planted within sixty (60) days of occupancy of the dwelling or upon completion of construction, whichever comes first, except that sodding, seeding, and planting new vegetation shall not be required during any weather conditions that restrict the ability to complete the planting or threaten the viability of the new vegetation.

(c) No planting shall be permitted within an easement of record which may damage or interfere with the installation and maintenance of utilities, or which may alter the direction or impede the flow of surface water in drainage channels within the easement.

(d) No owner shall grade or obstruct any swale or drainage way whether in an easement or not which is in existence at the time of construction so as to either: (i) impede the flow of surface water from other Lots through such swale or drainage way; (ii) change the directional flow of stormwater as shown on Exhibit C; or (iii) interfere with the drainage of stormwater as provided for under the Stormwater Management plans approved by the Town and the County (the plans may be obtained from the Developer or from the Dane County Land and Resources Department). All grading shall be completed so as to not change the flow of water is shown by the arrows on Exhibit C.

(e) Front and side yards must be sodded with turf grass; provided, however, the ACC may permit the front yard and side yard to be seeded with turf grass or an approved prairie grass seed mix, where weather conditions permit and appropriate alternative materials and practices are employed, such as the compost blanket seeding method. Rear yards which are not sodded must be seeded and properly watered and may include turf grass and/or an approved prairie grass seed mix.

(f) No fence, wall, hedge or shrub planting which obstructs sight lines at elevations between thirty inches (30") and seventy-two inches (72") above the roadways may be placed or permitted to remain on any corner Lot within the triangular area as shown as the "Vision Triangle Detail" on the Plat. No tree is permitted to remain within such distances of such intersections unless the foliage line is maintained at sufficient height to prevent obstruction of such sight lines.

6.2 Maintenance of Landscaping. The maintenance of the lawns, plantings and yard areas is the responsibility of the Lot Owner. The Lot Owner shall also mow and maintain the lawn and ditch area in the street right-of-way immediately adjacent to the Owner's Lot. Any trees or shrubs which die shall be removed by the Lot Owner and replaced with a like variety of the same size as the original plant at the time of planting so as to maintain the original landscaping elements. Modifications to the original landscape elements shall be approved by the ACC. Prior to development of the Lot, Owner shall be responsible for maintaining Lot ground cover at no more than 6 inches in height.

6.3 Fences. There shall be no chain link, vinyl, plastic or shadow box fences allowed. Other architecturally appropriate fencing may be approved by the ACC. As part of this consent, the ACC may require the installation and maintenance of landscape materials or plantings for screening and esthetic purposes. In accordance with Chapter 90 of Wisconsin State Statutes pertaining to rural fences, to the extent an adjacent landowner has requested and installed or requests a new fence for any Lot which abuts upon or is adjacent to land used for agricultural, farming or grazing purposes, the Owner of the Lot or Outlot, at its sole cost and expense and in equal shares with adjacent landowner requesting fence, shall erect, keep and maintain partition fences so long as either party continues to so occupy the lands, satisfying the requirements of the Wisconsin Statutes for a legal and sufficient fence between such land and the Lot. The occupants of the lands may agree to the use of markers instead of fences. Such fences or markers shall be kept in good repair.

6.4 Stewardship Plan. As dictated by the Stewardship Plan, certain Outlots of the Plat shall be maintained as natural prairie and woodlands. The Board shall establish a Stewardship Committee made up of Owners which shall be charged with following and implementing the Stewardship Plan, including completion of all required maintenance.

6.5 Variances. The ACC shall have the right to grant written variances to any of the covenants and restrictions set forth in this Article, except that no variances may be granted with respect to Sections 6.1(c), 6.1(d) and 6.1(f).

ARTICLE VII USE RESTRICTIONS

7.1 Use. The Improvements shall be used as a single-family residential Dwelling. A Dwelling shall be deemed to be used for "single-family residential purposes" if it is occupied by no more than one family (defined to include persons related by birth, marriage or adoption) plus no more than one unrelated person. No business, whether or not-for-profit, including, without limitation, any daycare center, animal boarding business, products distributorship, manufacturing facility, sales office, or professional practice, may be conducted from any Dwelling with the following exception: an Owner may conduct his or her personal business from his or her Dwelling as long as customers or clients do not customarily visit.

7.2 No Short-Term Rentals. No house or any portion of a house within the Subdivision shall be rented for a period of less than 360 days.

7.3 Pets. Domestic animals may not be kept, bred or maintained for any commercial purpose. All animals shall be housed in the house or garage. No free-standing kennels or dog houses shall be allowed. Commercial animal breeding, boarding, kenneling or treatment shall be prohibited, whether or not for a fee. No dog whose barking creates a nuisance to neighbors shall be kept on any Lot. No animals having vicious propensities shall be kept on any Lot. All animals must be restrained in a fashion to prohibit access to adjoining properties.

7.4 Parking. Parking of commercial or service vehicles, including lawn tractors, owned or operated by residents within the Subdivision shall be prohibited unless kept inside garages. Storage of boats, travel trailers, motor homes, campers, and other recreational vehicles on any Lots shall be prohibited except in garages. This section shall not prohibit the temporary parking of vehicles for the purpose of loading or unloading at the Lot at which parked, for a period not to exceed twenty-four (24) hours. No cars or other vehicles shall be parked on lawns or yards within the Subdivision at any time.

7.5 Appearance. Each Owner shall be responsible for maintaining the Owner's Lot, house, lawn, and all Improvements in a neat appearance at all times. This covenant shall apply to all Lots from the date of purchase, regardless of whether a building has been or is in the process of construction. The Owner's obligation shall include, but is not limited to the following:

(a) Noxious Weeds. All areas of Lots not used as a building site or lawn or under cultivation as a garden shall have a cover crop or be so cultivated or tended as to keep the areas free from noxious weeds. All lawns shall be free from noxious weeds.

(b) General Upkeep. The Owner shall keep the Owner's Lot and its house and other Improvements in good order and repair and free of debris, including, but not limited to, the pruning of all trees and shrubbery, and the painting or other external care of the house and

all buildings and other Improvements, all in a manner and with such frequency as is consistent with good property management.

(c) Trash. Trash and recycling containers shall be kept inside of garages and may be placed upon the curb no earlier than 6:00 pm on the day preceding collection. No garbage or refuse shall be placed upon the curb unless in a suitable container. No garbage or refuse shall be placed on any Lot except household trash and recycling bins stored in the garage or in temporary dumpsters used during construction or remodeling of a house. No trash, cuttings, leaves, rocks or earth shall be deposited on any Lot or Outlot, except an Owner may maintain a screened composting facility or wood pile, but only with the prior written approval of the Association.

7.6 Nuisances. No noxious or offensive trade or activity may be conducted on a Lot which will become a nuisance to the neighborhood or any other Lot within the Subdivision.

7.7 Signs. No signs of any type shall be displayed on any Lot without the prior written consent of the Association, except lawn signs of no more than eight (8) square feet in size advertising the Lot where located for sale, or identifying the builder during the period of construction of a house.

7.8 Outside Clotheslines. Clothesline poles shall not be permitted on any Lot. A Lot may have a retractable clothesline which retracts to the Dwelling, and shall remain retracted when not in use.

7.9 Firearms, Hunting, and Fireworks. No person shall discharge a firearm upon any Lot or Outlot. All Owners are hereby notified that the Town of Verona has a firearms ordinance and fireworks ordinance that must be strictly followed. Use of explosive fireworks is not allowed in the Subdivision. Activities which produce loud or excessive noises which disturb neighboring Lot Owners are prohibited. There shall be no hunting or trapping upon any Lot or Outlot.

7.10 Re-subdivision. No Lot shall be subdivided. This section shall not be construed to prevent the use or recombination of two or more Lots for one building site.

7.11 Tree Preservation. Retention of healthy native trees is strongly encouraged. No tree with a trunk diameter of greater than 3" shall be removed outside the identified building envelope except to remove dead, dying or diseased trees, to remove invasive species, for coordination with the placement of septic systems, or as otherwise authorized by the ACC.

7.12 Parade of Homes. While any Developer retains control of any Lots within the Subdivision, each Developer reserves the right to submit some or all of the Lots that it controls as a site for the Parade of Homes of the Madison Area Builders Association. In the event some or all of the Lots are selected as a site for the Parade of Homes, this Declaration as to the Lots enrolled in the Parade of Homes, for the limited period of time commencing 48 hours prior to the commencement of the Parade of Homes and ending 48 hours after the conclusion of said Parade of Homes, shall be deemed temporarily altered and modified, to the extent necessary to permit the Parade of Homes to be held in the Subdivision. All purchasers of Lots within the Subdivision, and their successors and assigns, shall take title subject to this specific reservation by the Developers and shall waive all rights to object to violations of this Declaration by the Developers, the Madison Area Builders Association, or any of the builders or participants in such Parade of Homes during the periods of such parade(s) as set forth above.

ARTICLE VIII ASSOCIATION

8.1 Membership. Every Owner of a Lot shall be a member of the Association. By acquiring a Lot, every Owner shall be conclusively deemed to have consented to membership and to the terms of these covenants.

8.2 Rights and Duties of Members. The articles of incorporation and the Bylaws of the Association are incorporated by reference. Among other matters, the articles of incorporation and Bylaws restrict the voting rights of certain members and obligate all members except for Declarants to pay regular and special assessments to the Association for its operations. The members shall have the rights and duties set forth in this Declaration, the articles of incorporation and Bylaws of the Association, all as amended from time to time, and as provided by applicable law. Any authority of the Association and its members shall be subject to the authority given to the Developer and the ACC in this Declaration.

8.3 Management of the Association. The affairs of the Association shall be managed by the Board. The Board shall be selected in the manner, and shall have the duties, powers (including enforcement) and responsibilities, set forth in this Declaration and in the articles of incorporation and Bylaws of the Association, as amended from time to time, and as may be provided by the laws of the State of Wisconsin.

8.4 Developer Control. Notwithstanding anything contained in this Declaration to the contrary, the Developer and Declarants shall govern the affairs of the Association until the Developers and Declarants (as a group) no longer own at least two Lots. Control of the Association shall be turned over to the Lot Owners upon the earlier of:

- (a) When the Developers and Declarants as a group no longer own a combined total of two or more Lots; or
- (b) When the Developers and Declarants elect to relinquish control of the Association.

8.5 Enforcement by the Association. The Association, subject to the rights of the Developer and Declarants acting together, set forth in this Declaration and subject further to the enforcement rights provided in Section 10.7, shall have the right to enforce this Declaration.

8.6 Assessments. Each Owner of a Lot shall pay regular and special assessments that are assessed by the Association pursuant to its Bylaws. The expenses to be assessed to the Owners of Lots shall include all of the reasonable and necessary expenses incurred by the Association in performing its obligations, including compliance with Stewardship Plan, entry-feature monument sign and landscaping (if applicable), utilities, insurance, fees for services, reserves deemed necessary or advisable in connection with any real estate taxes and special assessments and a reasonable amount of working capital. Until such time that the Association adopts a budget, the annual assessment amount shall be set at \$500.00 per Lot. The Declarants shall not be required to pay assessments for Lots which they own, except Lots on which a house has been constructed. Annual assessments due and owing for a particular Lot shall be prorated during the year of the initial sale to a third-party purchaser.

8.7 Collection of Assessments. The Association shall levy and collect assessments as provided in its Bylaws. Assessments levied by the Association shall be due and payable within 30 days from the date of such levy. In the event any assessment levied against any Lot remains unpaid for a period of 60 days from the date of the levy, the Association may file a claim for a lien against the Lot for which payment is not made, and under Section 779.70, Wisconsin Statutes, or other applicable authority, such claim shall be and become a lien against such Lot. Assessments which are not paid by the date on which they are due shall accrue interest at the rate of 12% per annum. The Association may exercise such remedies to collect unpaid assessments as may be afforded by law. The Owner of the subject Lot shall be responsible for all costs of collection incurred by the Association in connection therewith. The Owner of a Lot shall be personally obligated to pay such charges which are assessed or accrued during that Owner's period of ownership. Upon conveyance of a Lot, the grantee of such conveyance shall be jointly and severally liable with the grantor for all unpaid assessments and accrued interest. The Association may commence an action against any Owner personally obligated to pay the charges or to foreclose the lien for such charge against any Lot. Any such foreclosure action may be brought at the Association's election, either in the same manner as an action to foreclose a real estate mortgage, or as a proceeding to enforce a statutory maintenance lien as provided in Section 779.70, Wis. Stats.

8.8 Conveyance of Outlots to the Association. Declarants may at any time convey one or more Outlots to the Association. When Outlots are conveyed to the Association, the Association shall provide for the care, operation, management, maintenance, and repair of those Outlots. The Association shall be responsible for following the Stewardship Plan, maintaining the wet detention basin, infiltration basin, and other stormwater management features and Improvements on the Outlots, and any located on Lots within the Subdivision. The Association shall be responsible for the payment of any present and future general real estate taxes and special assessments, if any, levied against the Outlots which are owned by the Association. Any Outlots not previously conveyed to the Association shall be conveyed to the Association at such time as all of the Lots have been conveyed to purchasers.

8.9 Use of Outlots. Outlots are to be used and maintained as open space. No structure shall be constructed or installed on the Outlots without the prior approval of the Association. The obstruction of drainage ways and stormwater management improvements within the Outlots with vegetation or otherwise is prohibited. The Association shall be responsible for maintenance of vegetation on the Outlots. No Owner shall disturb, make changes to, or dump upon any Outlot. In the event an Owner damages an Outlot, the Association shall have the right make repairs and charge applicable costs to the Owner.

8.10 Stormwater Management. The Association, when it becomes the owner of the Outlots, shall inspect, repair, and maintain the Outlots pursuant to the requirements of the Stormwater Management Maintenance Agreement to be executed in connection with the Plat, a copy of which is attached hereto as Exhibit D, as the same may be amended (the "Stormwater Management Maintenance Agreement"), including but not limited to the removal of noxious weeds, periodic mowing, and upkeep of stormwater management facilities (including, without limitation, any swales). The Association shall be responsible for maintenance and repairs to other parts of the stormwater management system including drainage swales, and the pipes in the street right-of-way connecting wet detention basins. The Association shall complete the inspections required by the recorded Stormwater Maintenance Agreement for the Subdivision. If the Association fails to maintain any areas required in this section, the Town shall have the right, after providing the Association with written notice of the maintenance issue and thirty (30) days to comply with the Town's maintenance request, to enter the property at issue

in order to conduct the work specified in the notice. All costs and expenses incurred by the Town in conducting such maintenance may be charged to the Association by placing the amount on the tax roll as a special assessment in accordance with Section 66.0703, Wis. Stats., and applicable Town Ordinances. The Association shall be responsible for completing and submitting the biennial report to the Town on all stormwater facilities within the Plat as required under the Stormwater Management Maintenance Agreement.

8.11 Mailboxes. The Association shall be responsible for maintaining the cluster mailboxes (or other structures for parcel delivery) located in the Subdivision. The mailboxes throughout the Subdivision shall be uniform. The Developer shall specify the type and model of mailbox to be used in the Subdivision. After the Developer relinquishes control of the Association, the Board of Directors of the Association shall specify the type and model of mailboxes. The Developer, at their expense, will provide the required cluster mailboxes for the Subdivision. As mailboxes are replaced due to age, damage, or other reason, the Association shall bill the individual Lot Owner for the cost thereof, which bill shall constitute a special assessment against that Lot.

8.12 Video Cameras. The Association may install video cameras adjoining the road right of way, or along or in the Outlots if deemed necessary for security or safety monitoring.

8.13 Neighborhood Amenities. The Association may consider the funding and installation of "neighborhood" amenities (e.g. exercise or play structures) in the various Outlot areas if approved by a vote of fifty-one percent (51%) or more of the Lot owners.

ARTICLE IX EASEMENTS

9.1 Intent. The intent of this Article is to generally describe easements and restrictions which are depicted on the Plat. The Plat is incorporated by reference.

9.2 Utility and Drainage Easements. Utility easements and drainage easements on Lots and Outlots are shown on the Plat. The location and width of the easements is indicated on the Plat. Lots 22-23 and 55-57 are subject to public stormwater drainage easements.

9.3 Outlot Trails. Outlots 2-9 contain recreational trails for the benefit of the Lot Owners. The Association shall be responsible for the maintenance of the trails. The use of snowmobiles, motorcycles, golf carts, ATVs, UTVs, or other motorized vehicles within the Outlots shall be prohibited, except to the extent such usage may be necessary to accomplish repairs and maintenance of the trails.

ARTICLE X GENERAL PROVISIONS

10.1 Notice Regarding Surrounding Land Uses. The Subdivision is located in a rural portion of the Town and notice is hereby given that permitted rural activities should be expected on lands immediately adjacent and in close proximity to the Subdivision, to include, but not be limited to: crop and livestock farming, manure spreading, fertilizer and weed control spraying, legal hunting and trapping, and rural airport uses. Noise, offensive odors, dust, and activity during all hours of the day

should be expected. Owners are encouraged to review the permitted and conditional uses that are allowed per the then current zoning of lands adjacent the Plat.

10.2 Notice Regarding Nitrates. Notice is hereby given that there is a potential concern with high nitrates in Dane County. It is recommended that Owners perform periodic well water testing for nitrates.

10.3 Term. This Declaration will run with the land and shall be binding upon and inure to the benefit of all persons having an interest in any of the Lots for a period of thirty (30) years after this Declaration is recorded, after which time this Declaration shall automatically stand renewed for successive five-year terms unless terminated as provided in Section 10.4.

10.4 Amendment.

(a) While each Declarant owns one or more Lots, they shall have the right to subject additional lands to the requirements of this Declaration, terminate or amend this Declaration by an instrument signed by each Declarant and recorded at the Dane County Register of Deeds. To the extent a particular Declarant no longer owns any Lots, but one or more other Declarants continue to own a Lot, the Declarant who no longer owns a Lot shall not be required to sign the particular instrument of termination or amendment as described herein.

(b) After each Declarant no longer owns any Lots, the Owners by vote or consent of Owners owning two-thirds or more of the Lots, shall have the right to amend or terminate this Declaration by an instrument recorded with the Dane County Register of Deeds; provided, however, that no amendment adopted by the Owners shall place any added obligations or burdens on the Declarants or the Developer.

10.5 Invalidation. Invalidation of one or more of the provisions of this Declaration or any severable part of any provision by judgment or court order shall not affect any other provisions, which shall remain in full force and effect.

10.6 Exculpation. The ACC and its individual members shall not be liable under any circumstances for any damages, injuries, or losses, or impacts to any person submitting a request for approval, or to any Owner, tenant, mortgagee of any of the Lots or anyone else by reason of any action, failure to act, approval, disapproval, or failure to approve or disapprove with regard to such request. The ACC's review of plans does not include review for structural soundness or compliance with any applicable building codes or practices. The approval of plans by the ACC does not constitute a representation that any home or plan site meets any state, federal, county, or local setback requirements, statutes, building codes, or ordinances. The Owner of each Lot, and the Owner's builder, shall have the sole responsibility to insure compliance with all such requirements. The Declarants, the Developer, and the ACC shall not have any responsibility or liability for any such matters.

10.7 Enforcement Actions.

(a) Any Declarant or Developer, the Association, the ACC, and any Owner shall have the right to sue for and obtain a prohibitive or mandatory injunction, or any equitable

remedy to prevent the breach of, or to enforce the observance of this Declaration, in addition to the right to bring legal action for damages. The Association, however, shall have the exclusive right to collect assessments that are assessed pursuant to the Association's Bylaws.

(b) Any Owner who violates a provision of this Declaration shall be liable for reasonable attorney fees and court costs incurred by the enforcing party in any action brought under Section 10.7(a). Any person violating any of these covenants or restrictions shall be liable for all costs of curing the violation and shall be subject to a fine of One-Hundred Dollars (\$100.00) per day until the violation is cured.

10.8 Zoning. All Lots are further subject to, and shall fully comply with, the applicable zoning laws, ordinances, and building codes.

10.9 Protective Provisions for Town of Verona. Notwithstanding any provisions to the contrary herein, none of the following provisions of this Declaration may be altered, be allowed to expire or be terminated without the express written consent of the Town of Verona: the last four sentences of Section 4.5, all of Sections 4.7, 5.3, 5.4, 5.5, 5.6, 5.8, 5.10, the first sentence of 5.14, all of Sections 5.15, 5.20, 5.21, 5.22, 6.1(c), (d) and (f), 7.1, 8.8, 8.10, 10.1 and 10.2. The Town shall have the same enforcement rights with respect to such provisions as those provided to others in Section 10.7, other than the right to collect private assessments.

10.10 Notices. Any notice given in connection with this Declaration shall be in writing and may be given in any one of the following ways:

- (a) By personal delivery,
- (b) By Federal Express or other express mail service,
- (c) By mailing, via First Class United States mail, postage prepaid, addressed to the last known address of the recipient, or
- (d) By electronic mail.
